

Call for Volunteers

Hands-On Rainwater Harvesting Workshop
Saturday, November 22, 8:30 a.m. - 12:30 p.m.

Come help your neighbors capture the rain to support native plants! In this workshop, volunteers will learn the steps to plan, install, and maintain passive rainwater harvesting features in a residential yard.

Volunteers will:

- Gain hands-on experience in rainwater harvesting
- Use everyday tools to install basins, swales, and soil sponges
- Learn to plant and care for native vegetation that thrives on rainwater

Rainwater Harvesting Captures the Rain Where it Falls!
